

RAINBOW BUNTING

How to pour a burst of colour over your tea party

- 1** Print these two pages, single sided. You can print extra sheets for longer bunting!
- 2** Cut your bunting out along the cut mark and fold it along the fold mark. Tape the flap down, but leave the sides of it open. This will allow you to thread your string through the flap.
- 3** Thread string through the secured flap. Make sure you keep your bunting in the right order, so that the rainbow flows through it (see below). Tie knots along the string to space out your bunting evenly.
